Smart Form

Completion Guidance April 2024

General Guidance

How should I complete the form?

The form should be completed on screen and in chronological order. This is because some of the sections that become visible in later sections are dependent upon the answers to questions found in earlier sections.

Do I need to type into every field?

You should complete all the fields marked with a red border and any others that are relevant to your application. Where a drop down list is available, please use it. It is also possible to search the Country listing using the first letter of the Country.

Why can't I enter text or numbers into some fields?

In most cases where numbers are required e.g. Telephone number, trying to key letters will not move the cursor in the box. The field should work properly when the correct type of character is entered.

How do I know that the correct sections are available for me to enter information?

Ensure that 'Enter' key is pressed every time an entry is completed, particularly where a number has been selected or pre-populated to ensure the relevant sections become visible.

Why are some fields within the form mandatory?

The form is designed to ensure that we capture all the relevant information for your application which will increase the chances of your application being processed right first time.

How should I print the Smart form?

Please use the print button in section 12 on the form. There is more information on this feature later in this pack.

If I make a mistake, can I change my answers?

Yes, please delete the original answer or change the number and press enter (or tab if in an expandable box). Please ensure that ALL number selections after the change are entered again as new fields may have become visible and require completion and/or some data may have been lost.

Does the introduction of smart form mean quicker turnaround times for opening accounts?

The smart form has been designed to be bespoke to each entity's individual requirements. All the compulsory fields are marked in Red and completion of these will assist in the application being processed right first time.

If I want to open further accounts at a later stage, will I need to complete the Smart Form again?

If using the tab keys to navigate past the last box on a page, the cursor will move to the bottom of the page into the box called Customer Name. No text can be entered into this box, so tab should be pressed again to move on. We will try to address this for future versions of the form.

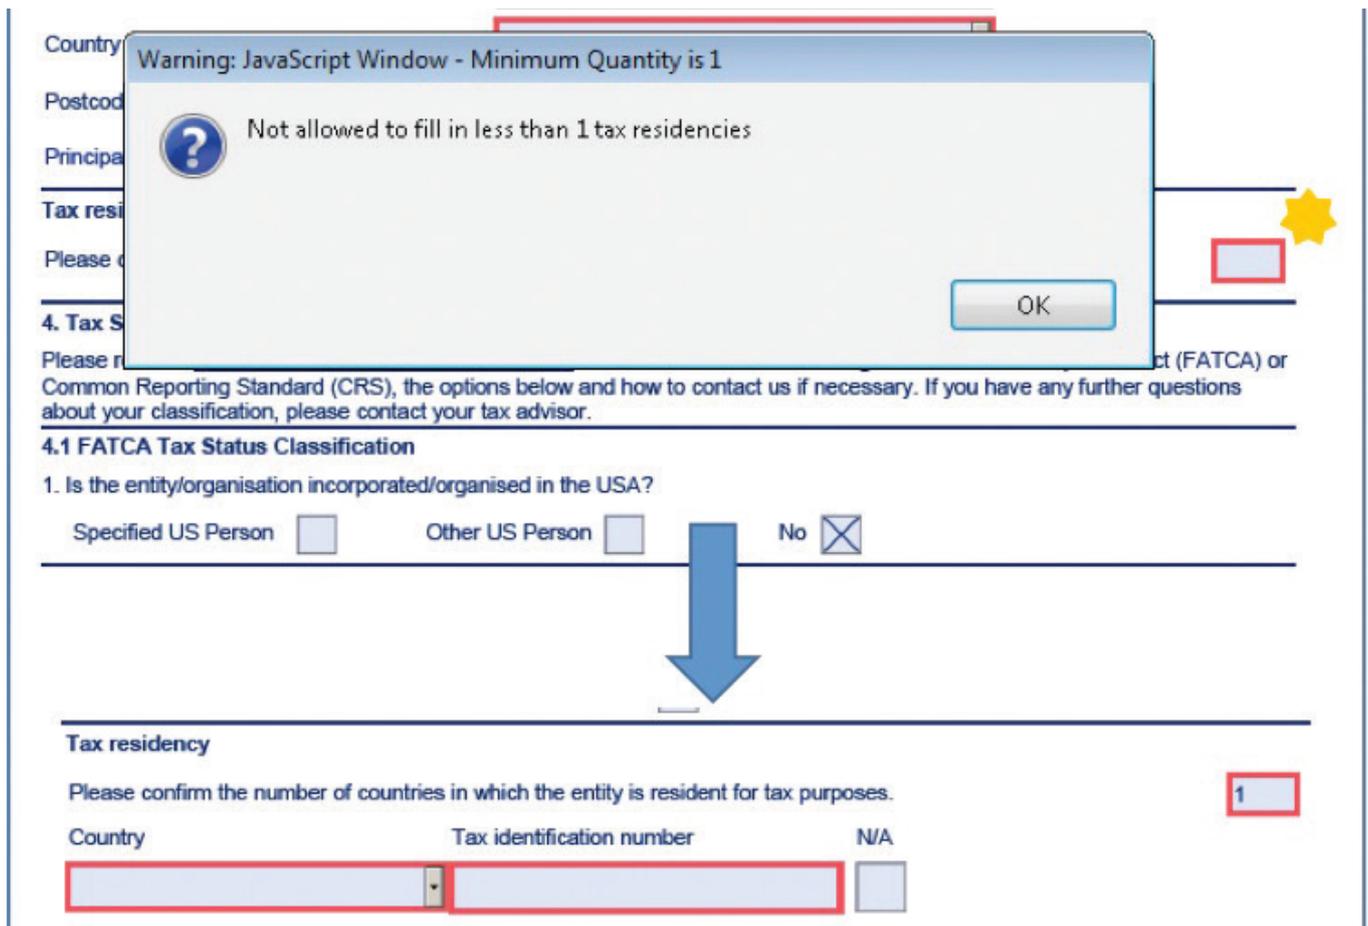

When using the tab button to navigate from a text box to a box that is expecting a date, you may encounter this message. Please click ok or press enter and then continue to select a date using the calendar selection tool or typing the date in this format DD/MM/YYYY

The screenshot shows a form titled "3. Customer details" with fields for "Business/organisation name", "Country of registration/formation", "Formation date (DD/MM/YYYY)", and "Registration number". A modal dialog box titled "Adobe Reader" is overlaid on the form, displaying an error message: "Please enter a valid date e.g. DD/MM/YYYY. You can also choose a date from calendar option by clicking the drop down." The "Formation date" field contains the text "info".

If a box that has a mandatory number assigned is clicked,  but no number is entered, when a subsequent box is selected a message as follows may pop up.

Once OK is pressed, the selection will automatically default to 1. Please ensure that this is the correct number and press enter.

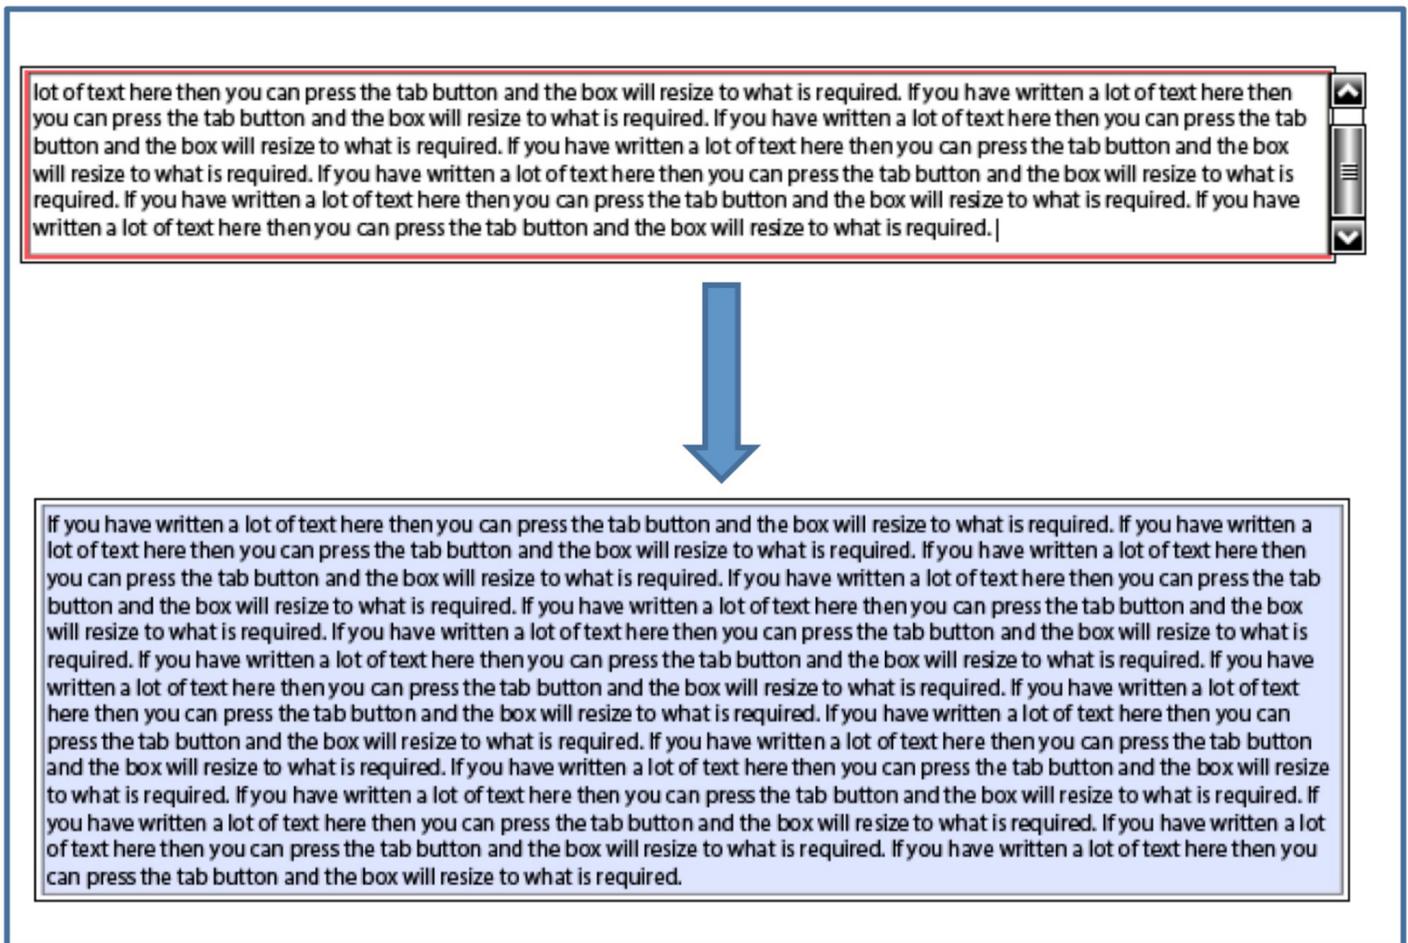

The screenshot shows a form with a "Warning: JavaScript Window - Minimum Quantity is 1" dialog box. The dialog box contains a question mark icon and the text "Not allowed to fill in less than 1 tax residencies". The "OK" button is visible. Below the dialog box, the form has a section titled "4. Tax S" and "4.1 FATCA Tax Status Classification". A question asks "1. Is the entity/organisation incorporated/organised in the USA?" with options "Specified US Person", "Other US Person", and "No". A large blue arrow points down to a "Tax residency" section. The "Tax residency" section asks "Please confirm the number of countries in which the entity is resident for tax purposes." and has a dropdown menu with the number "1" selected. Below this, there are fields for "Country", "Tax identification number", and "N/A".
